

8-36V DC EMERGENCY STOP RELAYS FOR MOBILE APPLICATIONS

Duelco 8-36V DC relays are constructed for mobile applications, where the input voltage is not stable, for example when starting a diesel engine.

Suitable applications:

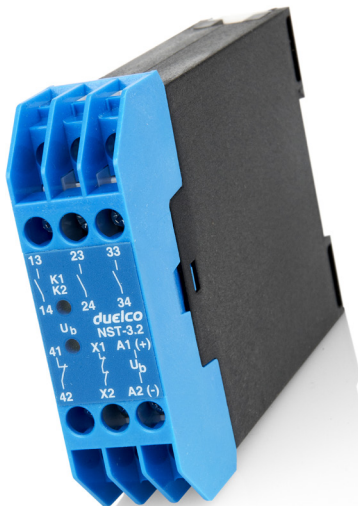

- Trucks
- Loaders
- Cranes
- Lifts
- Various construction machines

Special features upon request:

- Humidity protection
- Additional Electromagnetic compatibility (EMC) according to EN 13309

NST-3.2

- PL d acc to EN ISO 13849-1, cat. 3
- 3 NO contacts
- 1 NC contact
- Reset: Manual and automatic
- 12V DC supply voltage version also available

NST-2004

- PL e acc to EN ISO 13849-1, cat. 4
- 3 NO contacts
- Reset: Manual, automatic and manual monitored
- Transistor / NC output
- Suitable for magnetic contacts and light curtains
