FOR ELECTRICAL ENCLOSURES**

T-FAN

Filter Fans

High performance, fast mounting and easy maintenance

Modern design

A positive visual impact is given by the up-to-date design of the grills and the minimal external projection. All molded parts are made of highly resistant and self-extinguishing ABS, UL94 VO grade. The standard color is RAL 7035.

Easy maintenance

Easy maintenance thanks to openable front grill. Replacement of soiled filter mat takes only few seconds and it doesn't require tools.

Wide range of air flow ratings

The range of air flow ratings goes from 26 to 700m³/h

Optimal enclosure protection

The special configuration of the grill, the foam seal gasket and the filter mat ensure an IP54 protection degree towards the enclosure.

Quick electrical connection

ATV are fitted with spring terminals for a faster and safer wiring. Default terminals position is above the fan but it can easily be changed at the bottom of the fan according to wiring needs without tools thanks to Fan Quick Lock system.

Fan Quick Lock (FQL)

Default air flow direction is from the outside towards the inside of the enclosure. If needed the user can easily reverse the direction thanks to Fan Quick Lock system, without tools.

Fast installation

Installation is fast thanks to the simple square cutout on the enclosure and to the snap-in fixing system. No screws are needed.

T-FAN

Specifications, values and drawings are subject to change without notice.

VENTILATION

FAN QUICK LOCK (FQL)

Reverse Air Flow

Terminal top/bottom inversion

EASY MAINTENANCE Fast filter mat replacement (FMR)

ALFAB5

TIPS

The filter fan unit can be switched on by a thermostat that will power it only when the temperature exceeds a set threshold (e.g. 35°C). The fan works only when cooling is needed which saves energy, increases the life-time of the filter mat and reduce maintenance frequency.

ALFA23

TIPS

DC powered filter fan units can be the best way to prevent EMC interference to monitors and other sensitive equipment inside the enclosure.

Features	Unit	ALFA2000BPB	ALFA2300BPB	ALFA2310BPB	ALFA2324BPTB	ALFA2348BPTB
Air flow rate (free blow)	m³/h	-	120(130)(71 cfm)		120(71 cfm)	
Flow rate with exit filter	m³/h	-	100(110)(59 cfm)		100 (59 cfm)	
Power supply	V/Hz	-	230/50-60	115/50-60	24DC	48DC

ALFAKF

COMPACT FILTER UNITS

Suitable for direct screw mounting on axial fans. They can also be mounted with the fan inside the enclosure.

The mounting holes have diameter Ø6.0-6.5 mm. The material is black ABS, self-extinguishing, according to UL94 V-O.

Code	Description	Dim. mm.	Pcs in 1 pack
ALFAKF060	Compact filter unit	60x60	1
ALFAKF080	Compact filter unit	80x80	1
ALFAKF092	Compact filter unit	92x92	1
ALFAKF120	Compact filter unit	120x120	1
ALFAKF150	Compact filter unit	150x150	1

ALFAKR120

COMPACT FILTER UNITS - HIGH PERFORMANCE

Compact filter unit with reduced pressure drop. Filter media, steel or acrylic, is easily accessible and cleanable. Available in three versions:

Code	Description	Dim. mm.	Pcs in 1 pack
ALFAKR120	Compact filter unit w/ standard filter mat	125x125x10	20
ALFAKR120R	Compact filter unit w/metallic filter mesh	125x125x10	20
ALFAKR120RF	Compact filter unit w/standard filter mat and metallic filter mesh	125x125x10	20

SPINOTTO

FAN POWER CORDS

Suitable to all fast-on connection fans. Black cable with injection moulded straight plug for 2,8x0,5 mm pins.

Code	Description	Pcs in 1 pack
SPINOTTOA2-06	Straight power cord 600 mm.	1
SPINOTTOA2-10	Straight power cord 1000 mm.	1
SPINOTTOA2-20	Straight power cord 2000 mm.	1

ATVF - ALFAF

Spare filter mats for filter fans

Standard filter mats for filter fans and filter only units. To keep high performance it is necessary to periodically check the level of filter mat clogging and, if necessary, replace it with a new one. These filters are made of self-extinguishing synthetic fibres with a progressive filtering capacity.

Code	Description	Pcs in 1 pack
ATVF1	Filter mat for ATV1	10
ATVF2	Filter mat for ATV2	10
ATVF3	Filter mat for ATV3	10
ATVF4	Filter mat for ATV4	10
ATVF5	Filter mat for ATV5	10

High efficiency spare filter mats for filter fans

High efficiency filter mats are used in is very fine dust environments. However, air flow rates is substantially reduced and should be accounted for when selecting the filter fan.

Code	Description	Pcs in 1 pack
ATVF1X	Filter mat for ATV1, high efficiency	10
ATVF2X	Filter mat for ATV2, high efficiency	10
ATVF3X	Filter mat for ATV3, high efficiency	10
ATVF4X	Filter mat for ATV4, high efficiency	10
ATVF5X	Filter mat for ATV5, high efficiency	10

GRV190/GRV250

Grilled shroud for radial fans. They allow safe operation and increased air flow rate on radial fans.

Features	Unit	GRV190	GRV250
a	mm	170	214
b	mm	156	196
c	mm	5.8	5
d	mm	13	15
e	mm	130	166

ALFAGM

METALLIC PROTECTION GRILLS

Finger guard metallic protection grills for axial fans. Range Ø 40-254 mm. Complying with international safety norms.

Code	Description	Dim. mm.	Pcs in 1 pack
ALFAGM040	Metallic finger protection grill	Ø 40	100
ALFAGM060	Metallic finger protection grill	Ø 60	100
ALFAGM080	Metallic finger protection grill	Ø 80	100
ALFAGM092	Metallic finger protection grill	Ø 92	100
ALFAGM120	Metallic finger protection grill	Ø 120	100
ALFAGM127	Metallic finger protection grill	Ø 127	100
ALFAGM150	Metallic finger protection grill	Ø 150	100
ALFAGM220	Metallic finger protection grill	Ø 220	100
ALFAGM254	Metallic finger protection grill	Ø 254	100
